

Metering oil distribution gun

Inlet BSPP female thread

1/2"

Function

- measures the volume of the fluid delivered - reading of the volume on CD screen

Technology

Piston dual action

Operating pressure

43 to 100 psi

Outlet pressure

406 psi (air pressure at 101 psi)

Flow rate

20 l/min (for air pressure 6 bar)

BSPP female thread

Air inlet : 1/4" FBSP

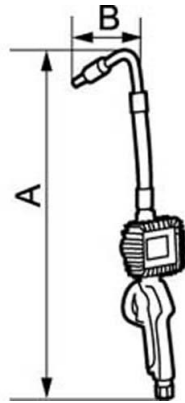

Pressure ratio

4:1

BSPP male thread

Oil outlet : 1/2"

Description		
Reference	Inlet BSPP female thread	Function
EPH VOL12	1/2"	- measures the volume of the fluid delivered - reading of the volume on CD screen

Dimensions

Reference	A inch	B inch
EPH VOL12	1.7224409448819	0.44291338582677
